🕒 3 Days 📍 Bai Sac, Son Tra Peninsula

Vinpearl Resort & Spa Da Nang
★★★★★
\$1870 / Per Person
🕒 3 Days 📍 Truong Sa, Ngu Hanh Son

Use a Cards tag that contains the smaller Card, and use common classes to css for them

Cards tag

CSS - ZOOM IN PHOTOS

We then add hover effects to our parent element which will affect our child element. A focus style is good for accessibility as well:

Eden Hotel Da Nang

\$1870 / Per Person

3 Days

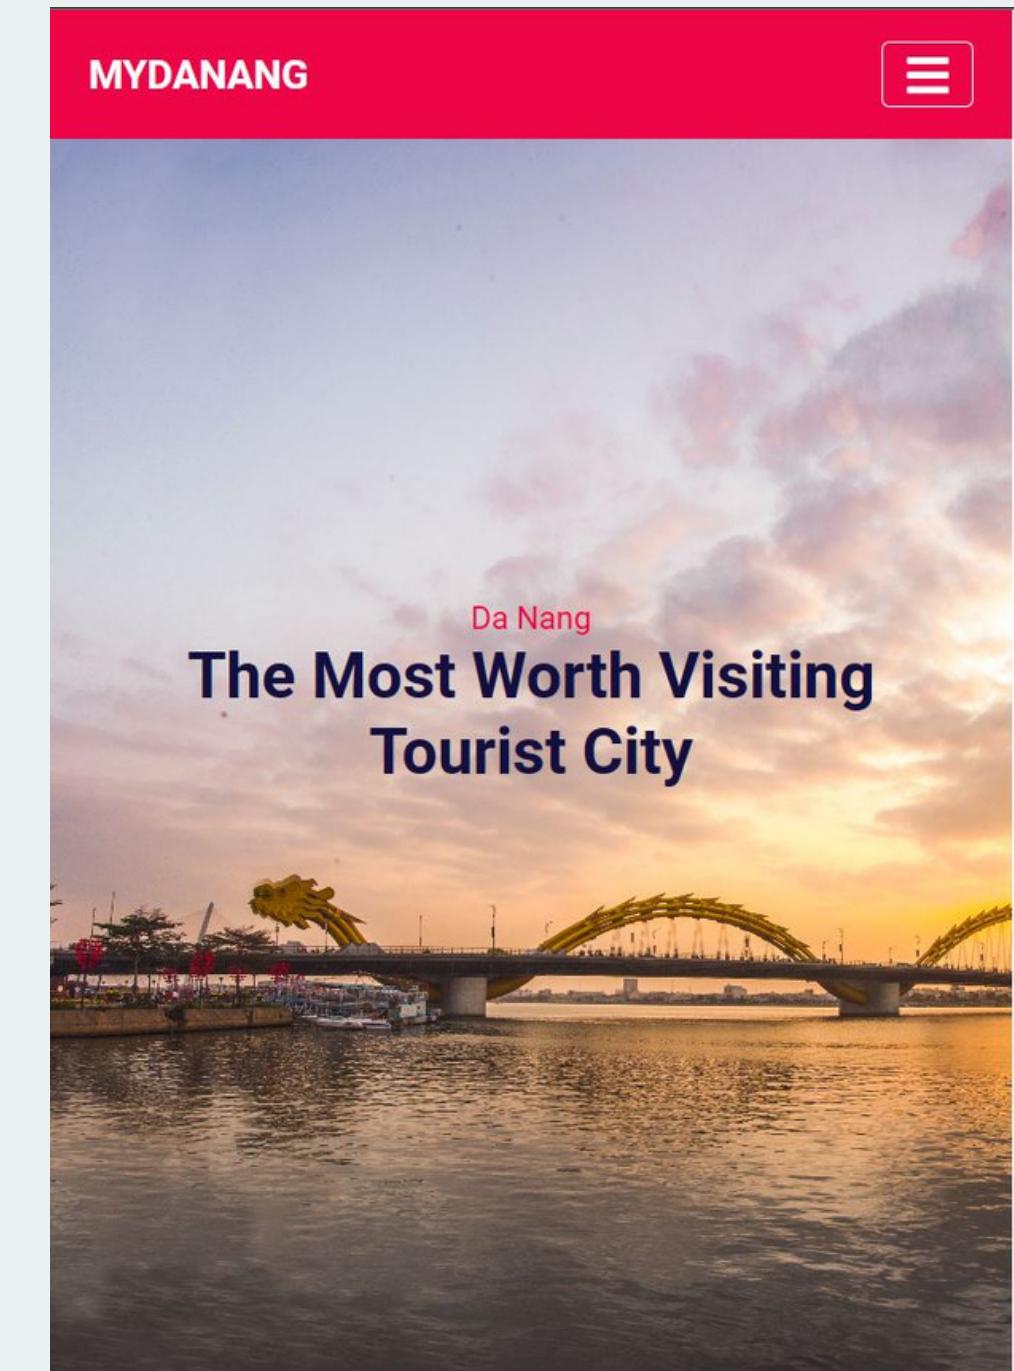

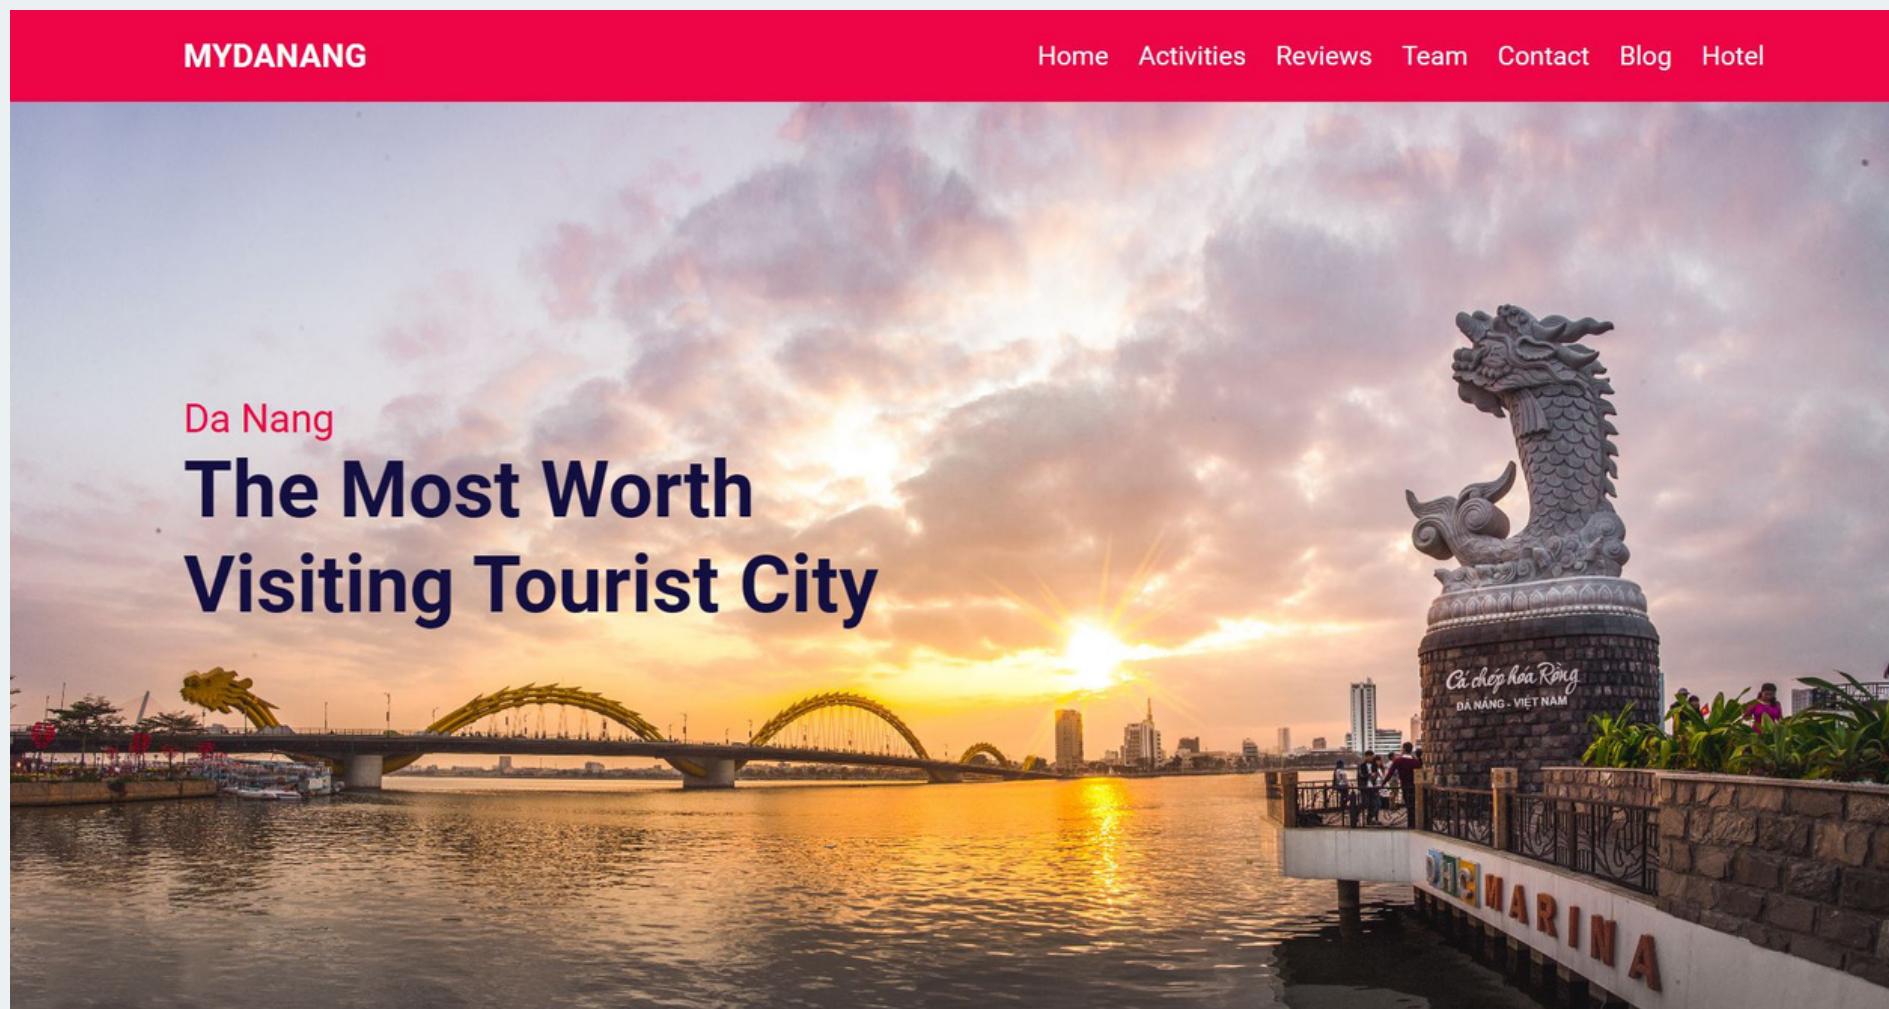

294 Vo Nguyen Giap Street

```
/*-----Zoom in Photos-----*/  
.zoom-img {  
    float: left;  
    position: relative;  
    width: 100%;  
    height: 320px;  
    overflow: hidden;  
}  
  
.zoom-img .img-card {  
    position: absolute;  
    overflow: hidden;  
}  
  
.img-card img {  
    -webkit-transition: 0.8s ease;  
    transition: 0.8s ease;  
}

REVIEWS

01. Han River Bridge And Dragon Bridge

“ Watching The Han River Bridge Rotate 90 Degrees Is One Of The Most Interesting Experiences In My Life, Besides, The Fact That The Dragon Bridge Spits Fire And Sprays Water Surprised Me Because Of The Outstanding Development Of Da Nang. ”

03. Local Coffee Shop

“ I Really Enjoy The Feeling Of Sitting At A Roadside Cafe, Sipping A Cup Of Coffee And Watching The Lives Pass In Front Of Me, A Very Peaceful And Relaxing Feeling. ”

04. Local People

“ The Local People Here Have Made Da Nang Even More Special, They Are Very Friendly And Hospitable, Ready To Help Tourists. They Are Very Genuine And Honest People ”

HOTEL PAGE

17

This is my hotel page. I created its thanks to HTML, CSS and Javascript.

MYDANANG

[Home](#) [Activities](#) [Car Rental](#) [Hotel](#)

The collage consists of eight images arranged in two rows of four. The top row shows: 1) A night view of a modern hotel building with illuminated windows and palm trees. 2) An ornate interior lobby with a large chandelier and decorative lighting. 3) An aerial view of a coastal resort complex built into a lush green hillside overlooking a sandy beach. 4) Two beach umbrellas and lounge chairs on a sandy beach under a clear blue sky. The bottom row shows: 5) A swimming pool area with lounge chairs and umbrellas, set against a backdrop of palm trees and the ocean. 6) A close-up view of a modern building's glass door and window area, with a white umbrella in the foreground. 7) A swimming pool with lounge chairs and umbrellas, with a mountain range visible in the background. 8) A beach scene with two beach umbrellas and lounge chairs, with the ocean and sky in the background.

```
.great-place-img img {  
  transition: all 2s ease;  
}  
  
.great-place-img img:hover {  
  transform: scale(1);  
}
```

Thanks to the transform command, it can zoom out, and the command transition to zoom out more slowly

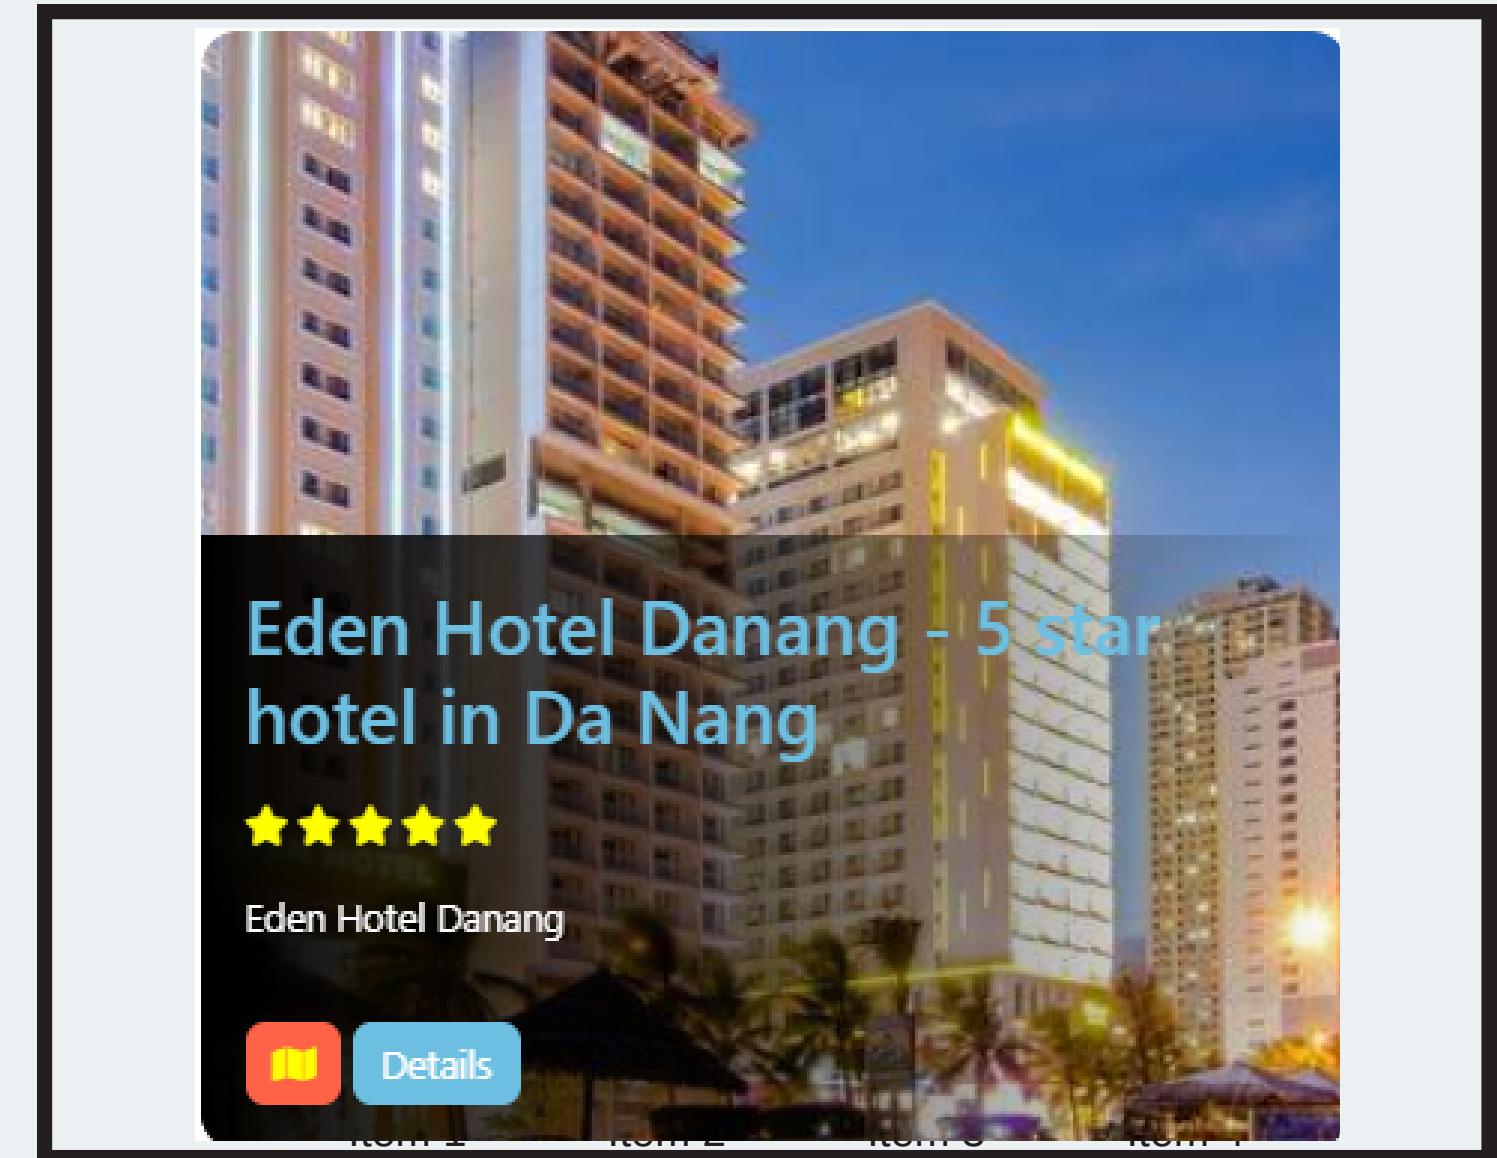

```
.great-place-text {  
  pointer-events: none;  
  position: absolute;  
  width: 100%;  
  /* height: 100px; */  
  bottom: 0;  
  padding: 12px;  
  background: linear-gradient(to right, □black, □rgba(255, 255, 255, 0));  
  transform: translateX(-100%);  
  transition: all 0.5s ease;  
  display: flex;  
  flex-direction: column;  
  gap: 10px 0;  
}
```

I let the font show after hovering and used the background to fade the black to white

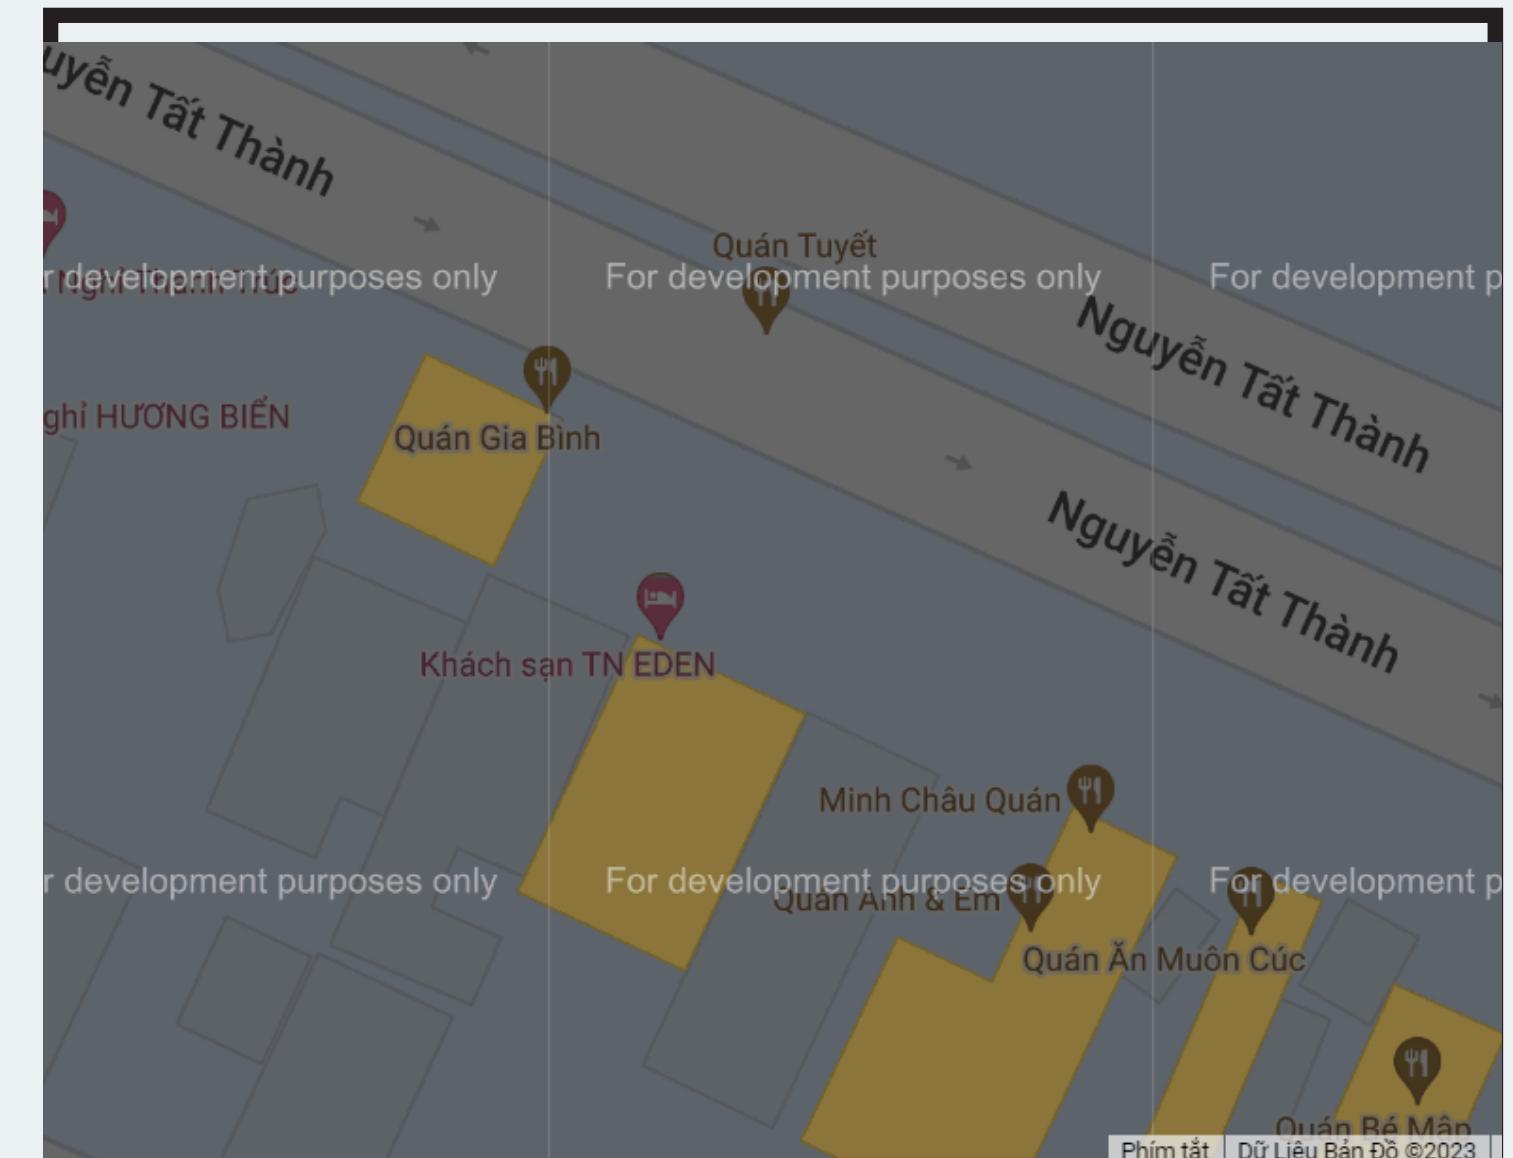

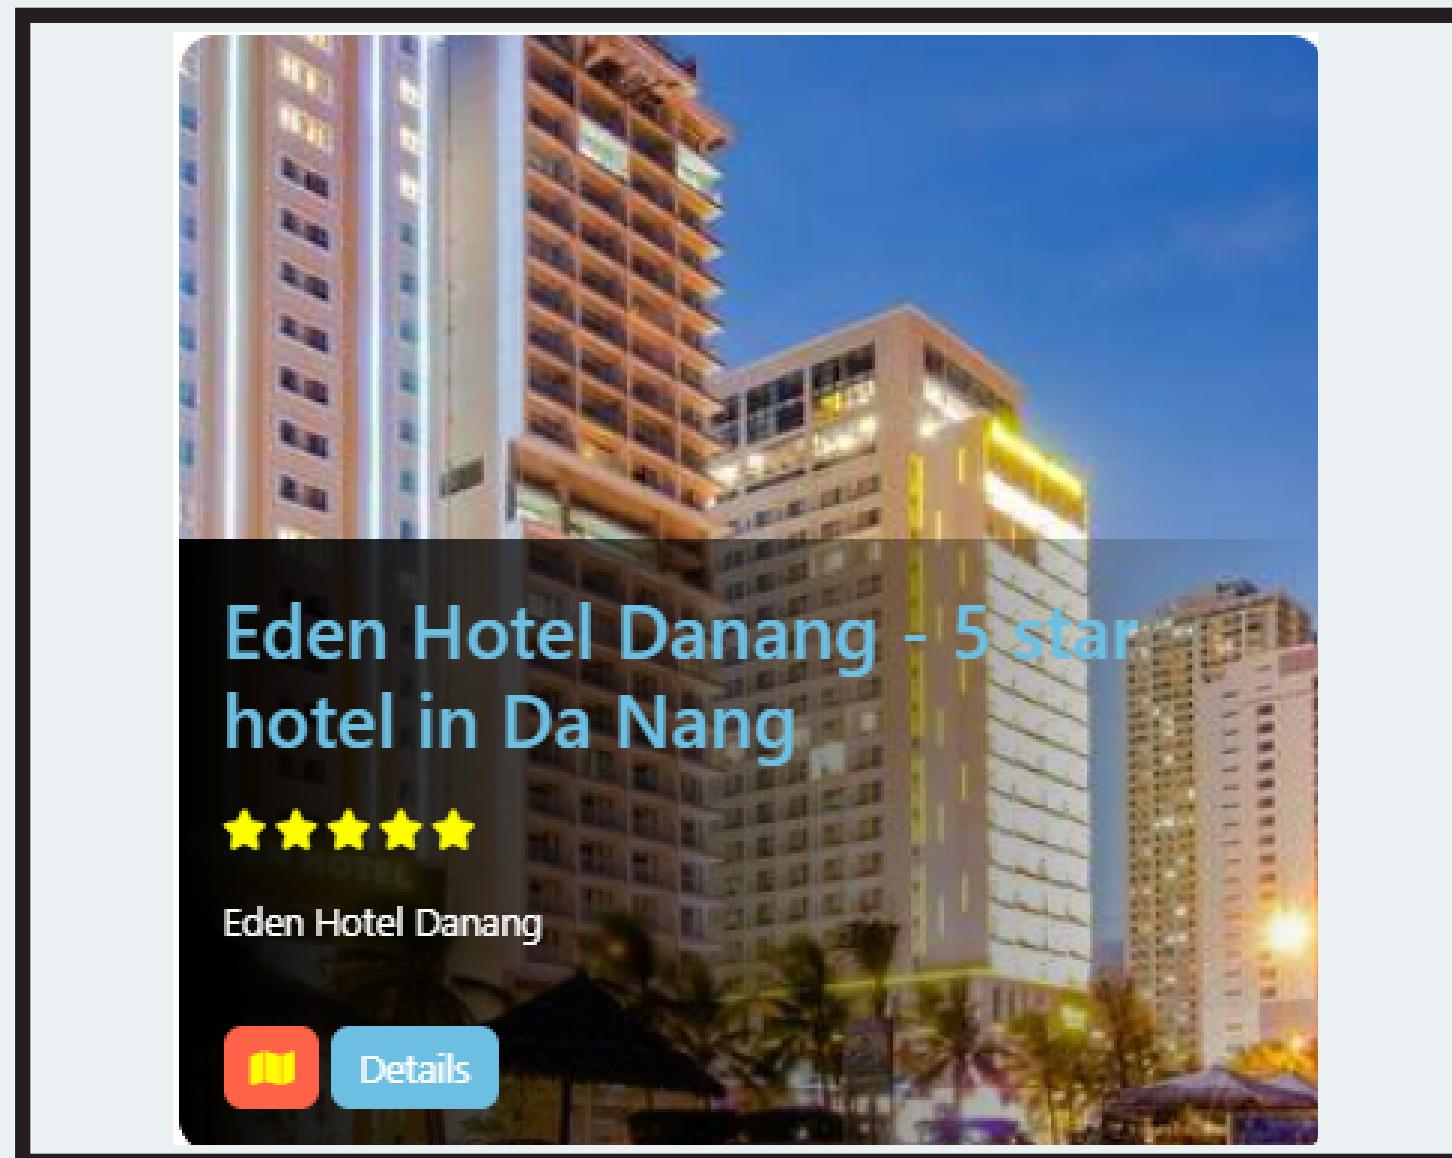

```
.great-place-text i {  
  color: yellow;  
}
```

next to the yellow star, I chose the input colour command

```
.great-place-text button {  
  background-color: var(--main-color);  
  border: none;  
  color: #fff;  
  cursor: pointer;  
  border-radius: 5px;  
  transition: all 0.5s ease;  
}  
  
.great-place-text button:hover {  
  background-color: tomato;  
}
```

I have adjusted the buttons when hovering the mouse will turn out tomato color

when click on the map icon, it will show a map and it will lead to the address of that hotel

```

(g => { var h, a, k, p = "The Google Maps JavaScript API", c = "google", l = "importLibrary", q = "__ib__", m = document, b = window; b =

function updateLocation(event){
  lat = parseFloat(event.target.dataset.lat);
  lng = parseFloat(event.target.dataset.lng);
  console.log(lat)
  initMap(lat, lng)
}

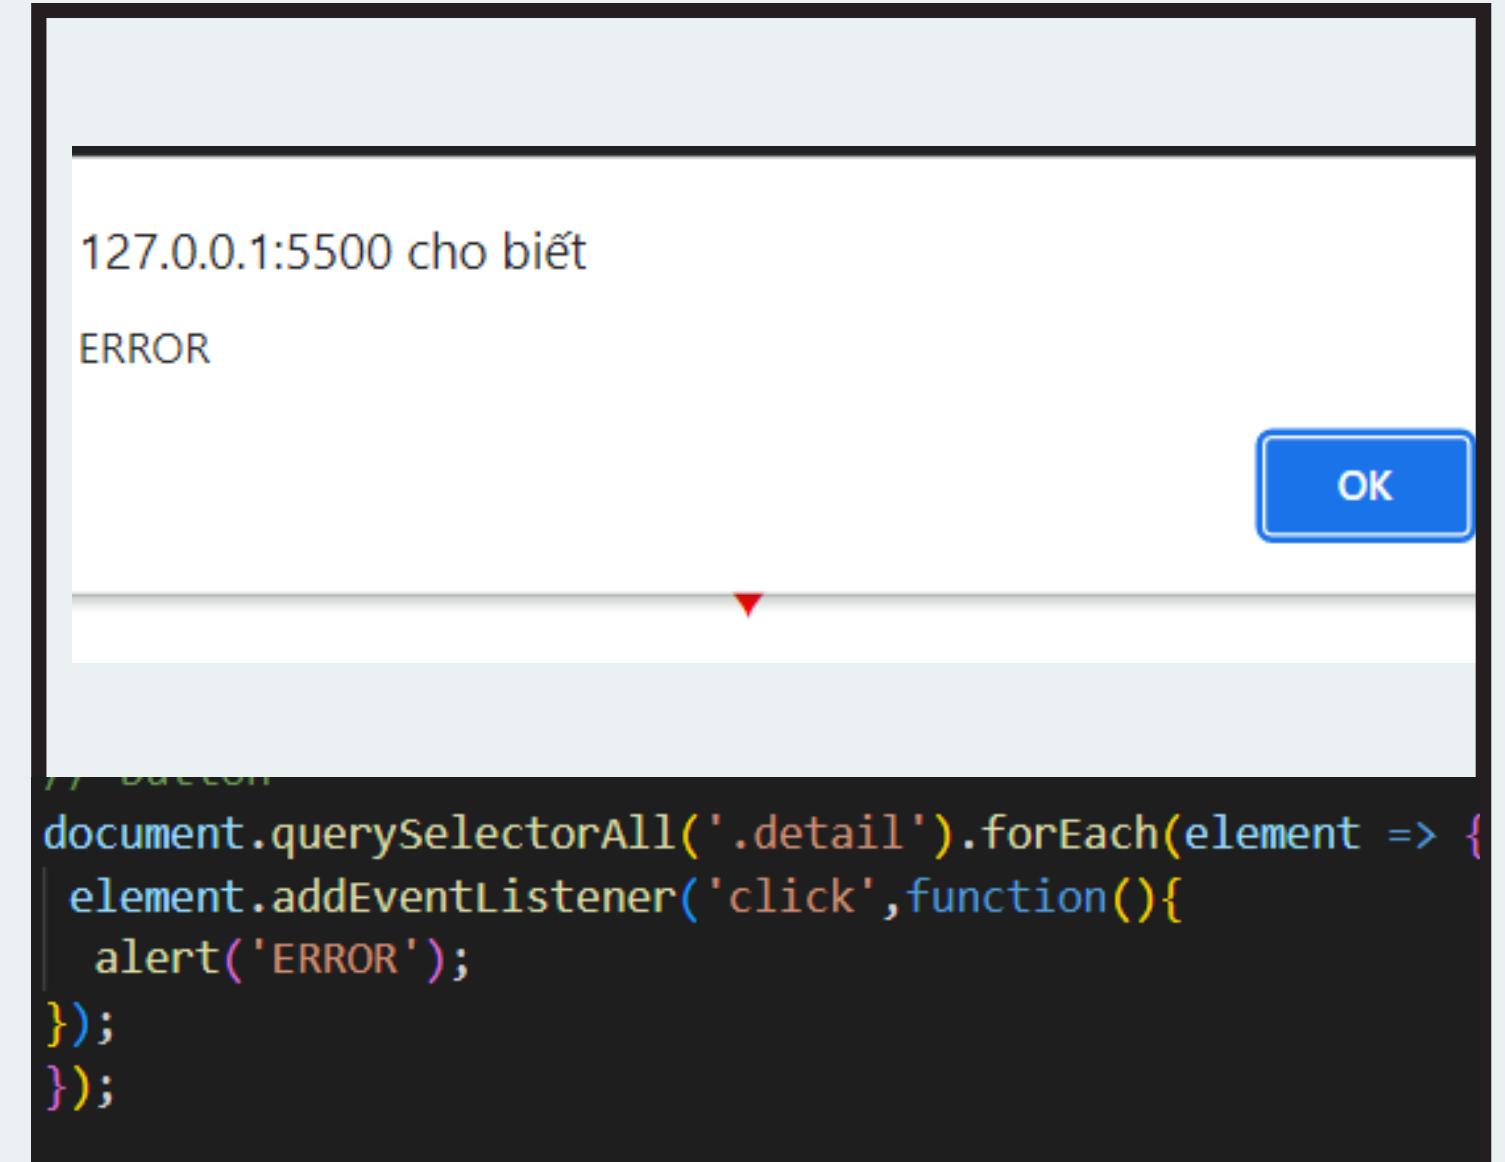

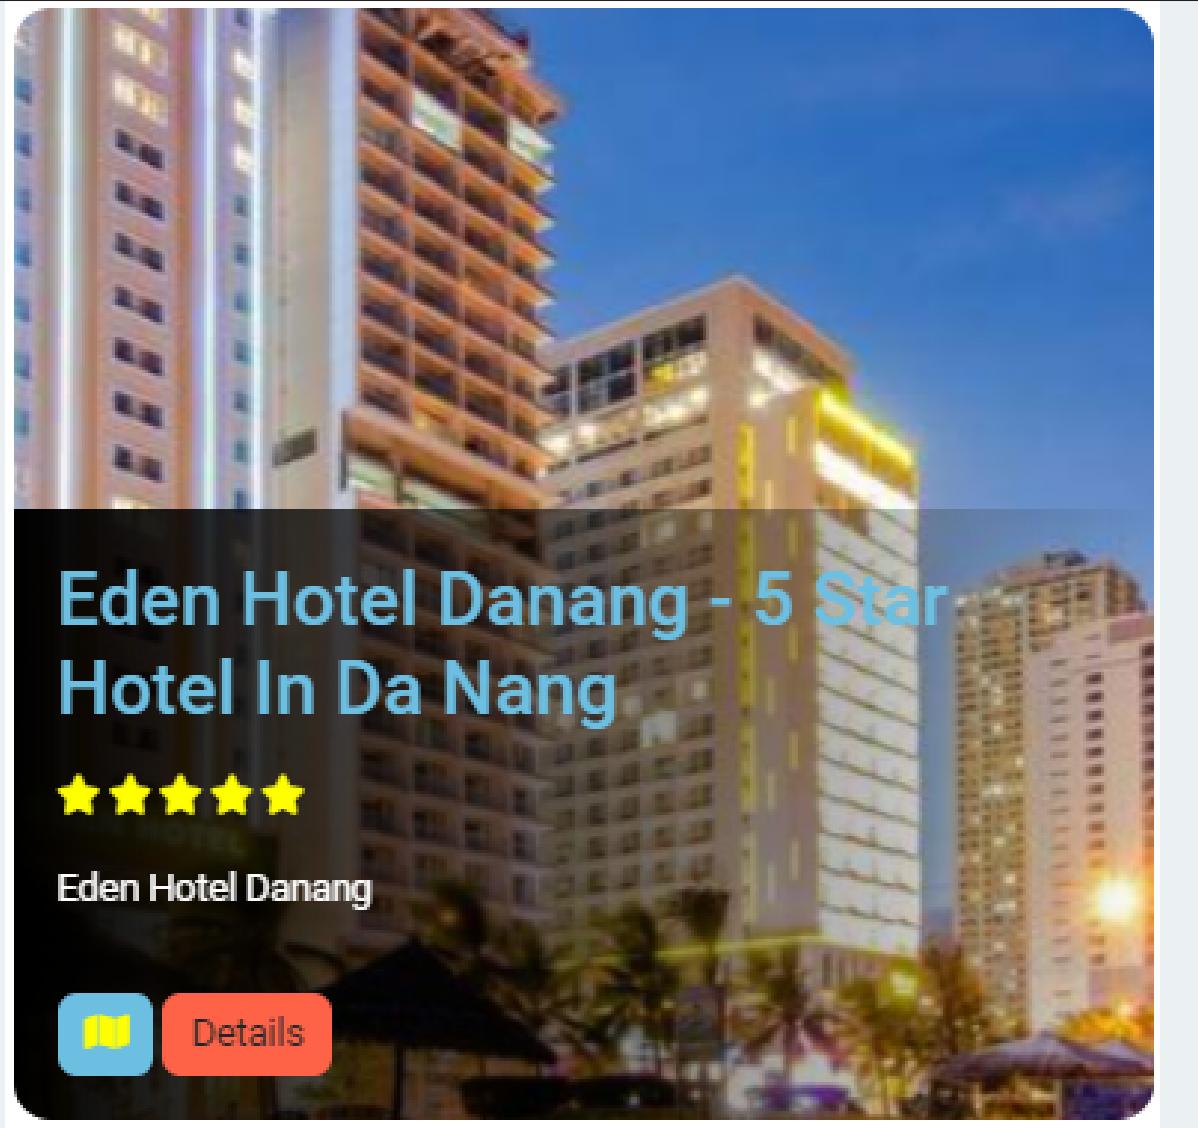

async function initMap(lat, lng) {
//@ts-ignore
  const {Map} = await google.maps.importLibrary("maps");

  map = new Map(document.getElementById("map"), {
    center: {lat: lat, lng: lng},
    zoom: 20,
  });

  let button = document.querySelectorAll("btn")
}

```

I have integrated the google maps API into my code. And this code is a sample provided by Google for developers to use

I created it a command that when I click detail, it will show an error because I have not updated

CHALLENGES

GIT-HUB

MEMBER JUST DIDN'T KNOW HOW TO USE GIT-HUB AND GET MANY PROBLEMS WITH IT

TEAMWORK

EVERY ONE JUST DID ON THEIR OWN WORK AFTER DEVIDING TASKS

DESIGN

INTERFACE PROCESSING AND DESIGN SKILLS ARE POOR

LACK OF KNOWLEDGES

SOME IMPORTANT PART WE'VE NOT DONE SO WE ELIMINATE THAT PART

DISCRIMINATION

SOME MEMBERS JUST DO NOT CARE ABOUT THEIR WORK AFTER THEY'RE DONE

REFLECTION

TIME-MANAGEMENT

GET TO KNOW HOW TO
MANAGE TIME PROPERLY,
AND WORK ON IT FOR
EACH TASKS

SELF-STUDY

MEMBERS HAVE TO WORK
ON THEIR OWN
KNOWLEDGE WITH
INFORMATION ON THE
INTERNET

TEAM-WORK

MEMBERS SHARE THEIR
WORK WITH EACH
OTHER AND HELP
TOGETHER

USING METHOD

WE KNOW HOW TO USE
MANY SIMPLE METHOD
FOR RESPONSIVE
WEBSITE
